STAT	Cy 3 of 4
	29 March 1956
	MEMORANDUM FOR THE RECORD:
STAT	1. On 21 March I proceeded to Watertown to determine the escape and evasion needs of the six drivers. They turned out to be a very articulate group and after talking with them as a group and several of them individually, I found rather precisely what they wanted to know in the field of E and E. Ninety percent of their requirements can be met by sending a geographer well versed to Watertown to give them as much detail as they want on terrain, transportation, customs, et cetera. The other part, the technical side of E and E, can be handled by the Office of Training at their installation for this purpose.
STAT	
	3. I feel that the trip was extremely successful and that we have an exact idea of what the drivers want. I also feel that most of their needs can be satisfied.
